and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I purchased this affordable cell service for my son, who is developmentally disabled. He uses it to keep in contact with me when he is out and it is available to him in the case of an emergency. He only uses it for these purposes, therefore, I buy one year of service and he has never used his whole allotment of minutes. We are both on limited social security income and this would be a financial hardship for either of us. Please reconsider. Thank you.

I also trust that my personal data will not be sold and that I nor my son will begin receiving unsolicited phone messages.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Sandra Myers
